⇒ **Elizabeth Neel: Stick Season**

Mondays, Thursdays-Sundays. Continues through Nov. 29
718-361-1750
ART

We love that the city's best underdog museum continually defies the medium restriction implicit to its title by showing art that challenges the limits of sculpture, but Neel's smeared oil-on-canvas compositions are straight-up paintings, no matter how mural-sized they may be. Perhaps that's the point: Paintings this big and scrappy, whose effects are inseparable from their material conditions, might just as easily be considered sculptures.
